

P5 & P6 Maths - Patterns in number sequence class

Program Summary

Patterns in number sequence is a topic that Upper Primary students frequently have trouble in. In this **1 lesson**, we will go through 4 specific skill sets that cover all the questions that will come up from this topic. Students will have little trouble solving questions from this topic after attending this lesson.

Details of the program

- A single lesson of 2.5 hours
- Lesson fee is \$75
- Lesson plan includes going through of the 4 skill sets and practicing 16-20 questions. There will be a fun quiz for student to be able to identify which skill set is required to solve a question.
- As this topic can be particularly challenging, there is entry requirement for this program so that students can derive maximum benefit.
- Students should be getting test score of at least **62 marks** in their CA or final exams.
- Lesson is taught by Dr Francis who has 17 years of tutoring experience teaching Maths and Science. These skill sets were designed by him.
- Contact **Dr Francis at 98514057**
- **Lessons available on 17-20 Mar, 24 and 31 Mar**
- **Visit our website at www.breeze-education.com**

About Breeze Education:

Breeze Education offers Maths and Science tuition to Upper Primary and Secondary students. Lessons are structured to address key bottlenecks in learning experienced by students which include lack of clarity on topic focus and how to apply those concepts in solving examination questions. Some classes are tailored to have a particular focus on areas that are commonly faced by students such as the P6 Maths Problem Solving Class. Tuition sessions are conducted by Dr Francis who has a PhD in Biomedical Science from National University of Singapore and has been conducting tuition since 2000.
